SUMMARY

Full-stack developer and freelancer who builds, deploys and maintains websites for real clients. Shipped a live e-commerce platform processing real Razorpay payments, custom WordPress themes with scroll-driven 3D, and handle SEO for six client sites. Works across React, Next.js, Node.js, Express, PostgreSQL (Supabase) and MongoDB, from database and API design to UI and search visibility.

EXPERIENCE

Freelance Web Developer & SEO | Self-employed
- Build and deploy websites for small-business clients end to end: brief, design, development, hosting and handover.
- Run SEO for 6 WordPress client sites (3dautoartist.com, auto-r-tist.com, heatfence.com, goldenfernschool.com, surfaceshieldautomotive.com, surfaceshield.in): technical audits, titles and meta, schema, canonicals, broken-link redirects, mobile speed and llms.txt, with a dated change report per client.

PROJECTS

Bhaktanjaneya Sweets – E-Commerce Platform & Business Dashboard | Freelance, Live | Next.js, TypeScript, Supabase (PostgreSQL), Razorpay | bhaktanjaneyasweets.in
- Built the storefront, cart, order tracking, bulk/B2B orders and blog on Supabase-backed API routes.
- Integrated Razorpay with server-side order creation and signature verification; processes real payments daily.
- Built the admin panel (products, offers, orders, customers) and an internal dashboard with live cash and bank balances, a running ledger, monthly statements and a cash-runway forecast.
- Implemented on-page SEO: metadata, structured data, sitemap and performance fixes.

Surface Shield Automotive – Paint Protection Studio | Freelance, Live | WordPress, PHP, three.js | surfaceshieldautomotive.com
- Custom WordPress theme with a pinned, scroll-driven three.js scene where a 3D car gets its film fitted panel by panel.
- Pages for five PPF films and four coatings, fitting bookings and a customer warranty checker.

Global Certs IT – IT Certification Training | Freelance, Live | Next.js, three.js, Tag Manager | globalcertsit.com
- Next.js site covering 194+ certifications with a 3D globe of providers and a page per provider (PMP, AWS, Microsoft).
- Added a free résumé checker as a lead magnet and consent-aware tracking that ties ad clicks to WhatsApp enquiries.

Stars Gym – Membership Web App | Freelance, Pre-launch | Next.js, TypeScript, Supabase, Razorpay | starsgym.vercel.app
- Installable web app with Google sign-in, Razorpay plan purchase (signature verified, webhook as backstop), pay-at-desk UPI QR and an admin analytics dashboard.
- Kept money and check-in rules in Postgres functions with row-level security: geofenced once-a-day check-ins, streaks, and pass QR codes that re-sign every 30 seconds.

Golden Fern World School – Preschool Website | Freelance, Live | WordPress, JavaScript | goldenfernschool.com
- Custom WordPress theme the school updates itself: a scroll-driven 3D sphere of programme cards and book-a-tour forms one click from every page.

Slotify – Timetable Builder for VIT-AP | Live | React, Vite, Tailwind CSS, PDF.js | slotify-vitap.vercel.app · GitHub
- React app that parses timetable PDFs and blocks clashing slot picks, replacing manual slot allocation.

KnowYourFaculty – Anonymous Faculty Reviews | Live | React, Supabase | knowyourfaculty.vercel.app · GitHub
- Verified sign-in, anonymous reviews, faculty rankings, live polls and moderation in 8+ Indian languages.

YouTube Clone – Backend (REST API) | Node.js, Express, MongoDB, JWT, Cloudinary | GitHub
- Modular REST APIs for videos, playlists, likes, comments and subscriptions behind JWT auth; uploads via Multer and Cloudinary, with validation, centralised error handling, search and filtering.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, C, C++, SQL, PHP, HTML, CSS
- **Frontend:** React, Next.js, Tailwind CSS, Vite, three.js
- **Backend:** Node.js, Express.js, REST APIs, JWT authentication
